Preliminary Program

1st SWISS ACCIDENTAL HYPOTHERMIA DAY
Swiss Expert Meeting & International Symposium

Wednesday, 27th November 2013
Inselspital, Bern
Hans Goldmann-Hörsaal, Augenklinik

Department of Emergency Medicine
Prof. Dr. Aristomenis Exadaktylos
Chair of the Department
This meeting was founded by the two organizers with the aim to bring doctors, researchers, rescue teams and organizations from Switzerland together to share their experience, questions as well as suggestions for improving the outcome of victims of accidental hypothermia.

The International Hypothermia Registry (IHR) has been set up specifically for this aim and we hope to see all centres participating.

Additionally, pre-hospital and hospital algorithms should be exchanged and discussed in order to eventually reach a consensus for a Swiss accidental hypothermia treatment guideline.

The meeting will be organized in turn on a yearly basis by the Swiss participating Working Group Members.

https://www.hypothermia-registry.org

Organizing Committee:
Dr. Monika Brodmann Maeder
Head of Education and Wilderness Medicine
Department of Emergency Medicine, Inselspital
Bern University Hospital

Dr. Beat H. Walpoth
Director, Cardiovascular Research
Service of Cardiovascular Surgery
Geneva University Hospital

Registration fee:
CHF 50.– including lunch, coffee breaks and congress material
